PIPELINE SAFETY STUDY ACT

HON. JOHN GARAMENDI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 30, 2021

Mr. GARAMENDI. Madam Speaker, today I introduce the "Pipeline Safety Study Act" to direct a National Academy of Sciences study and report to Congress on the vulnerabilities in our oil and natural gas pipeline infrastructure. This bill is based on legislation I cosponsored last Congress with former Congressman Harley Rouda (D-CA-48). I also want to thank the National Society of Professional Surveyors, Subsurface Utility Engineering Association, and U.S. Geospatial Executives Organization for endorsing my bill.

Specifically, the legislation I introduce today would direct the National Academy of Sciences to review current federal regulations for pipeline safety and identify risks to pipelines from earthquakes and climate change-related weather events, whether by their design or their location. The federal guidelines for earthquake-resistant construction of gas and liquid fuel pipelines have not been meaningfully updated since 1992.

Since then, the proliferation of hydraulic fracturing for natural gas has been linked to increasingly frequent earthquakes in states with virtually no prior history of naturally occurring earthquakes. Because California is riddled with active fault lines and has experienced increasingly regular and severe forest fires due to climate change, my home state's energy infrastructure is particularly vulnerable to these threats.

In 2010, eight people died in San Bruno, California when a defective pipeline exploded, but this tragedy was eminently avoidable. Residents had reported smelling a gas leak days ahead of the explosion, and investigators later found evidence of shoddy welds that had rendered the pipeline vulnerable to any number of potential disruptions. While this event was not directly linked to an earthquake and instead caused by shoddy maintenance and failure to replace an antiquated line, the federal government can and must do better to improve pipeline safety.

Madam Speaker, Congress cannot begin to strengthen the safety and resiliency requirements for federally regulated pipelines before we understand the gaps in the government's own outdated regulations and industry practices. The National Academy of Sciences study authorized in my bill would do just that, so that Congress can understand the scope of the problem and begin to legislate the solution.

I thank Chairman DEFAZIO (D-OR) for including my bill in the hazmat title of the "In-

vesting in a New Vision for the Environment and Surface Transportation (INVEST) in America Act" (H.R. 3684).

REMEMBERING JOHN KLEIN

HON. TIM RYAN

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 30, 2021

Mr. RYAN. Madam Speaker, I rise today to honor the life of John Klein, who passed on June 20, 2021 in Columbus, Ohio at the age of 72.

John was a passionate family man who treasured his time coaching his two boys in basketball. He was the assistant basketball coach for Belpre High School from 1996 through 2002. Throughout, he also coached all kinds of teams from junior high school to AAU. John would readily admit that his sons' trips to the Ohio High School Athletic Association basketball state tournament were the highlights of his coaching career.

Mr. Klein is a graduate of Aurora High School and Indiana State University. He retired from AEP in 2019 having worked at Zimmer Power Plant, Muskingum River Power Plant, Pickaway Power Plant and the Darby Gas Plant.

John was one of the most caring men you could ever meet with a quirky sense of humor that would have people in stitches. He loved going to the track and playing poker at the casinos. There wasn't a Hallmark movie that John didn't like. He was the ultimate Cincinnati Reds and Bengals fan. Always anticipating the upcoming season.

He was predeceased by his parents, Gene and Lucille Klein, and his sister, Emily Klein.

John is survived by his wife, Theresa, sons, Zach (Jennie) and Patrick (Whitney); grandchildren, Stella and Rocco; and brothers, Dave (Marcia) and Mike (Jill). John also had a myriad of nieces, nephews, great nieces and great nephews.

John's love and dedication for his family and for life was something special. Not only did John serve as a devoted coach of basketball, but as a role model for all those he knew, touching many lives along the way. My deepest condolences go out to his dear family and friends.
